## Harmony

### **Stephen** CEO of **Harmony**

Harmony builds an open marketplace at Google-scale for the decentralized economy. This project aims to provide a consensus protocol over the open Internet at 10 million transactions per second. Harmony's goal is to be over 1,000 times faster and cheaper than Bitcoin and Ethereum.

## coinalpha

### **Michael** CEO of **CoinAlpha**

To enable developers, traders and fintech companies to create an infinite universe of smart contract-based financial products, powered by blockchain technology and machine learning.

### **Zi** CEO of **Third Planet**

Actuate a decentralized service market economy to serve everyone, to embrace humanity before technology and to preserve and cherish the pale blue dot, the only home we've ever known.
